General Notes 1/4/16

1/13/16
So after admin rights I installed Java, Eclipse, VBox
Now this morning I downloaded the MS IE [9,10,10] Win7 VMs
so that I can run IE for testing.

Eric sent me in SLACK on 1/6/16 a link to
http://osxdaily.com/2011/09/04/internet-explorer-for-mac-ie7-ie8-ie-9-free/

giving me complete access to lots….

Back to use of the VMs
Notes: the admin password for all of the IE VMs is "Password1"

1/12/16
Admin Rights for the mac were granted by
Alen Swartz
Lead, End User Services
aswartz@svb.com
T 408 654 7239

M 408 687 3246

UID / PID simply had their creds elevated to sudo status.
nothing different for me. Just added ability.

Note: 1/8/16
Confluence: Remember there are 2 Murano spaces

https://qa4.svbconnect.com/auth/
usser adbrain_all   passwd   newpas1*

actor childhood restaurant

then paste on /payment
Note: not going to https

1/5/16

Placed this help desk ticket to get started with Good uid / pid in order to download the VPN app

Order Placed: **01-04-2016 14:57:43**
Request Number: **REQ0180633**   Bookmark request
Estimated Delivery Date of Complete Order: **01-09-2016**

Nothing yet.
I am expected in SF later today.
